

# Series 7 Contemporary Double DishDrawer Dishwasher

Contemporary

Introducing the next evolution of DishDrawer™ Dishwasher design. The Double DishDrawer™ Dishwasher delivers advanced performance and everyday flexibility. Independent drawers can run separately or together, while new wash technology offers a step up in energy and water efficiency, engineered for real life and shaped by decades of DishDrawer™ Dishwasher innovation.

- Wash one, stack another. Independent drawers run separately or together, fitting plates up to 280mm in diameter
- Adaptable racking fits everything from glassware to cookware, offering flexibility for every occasion
- Versatile wash cycles and modifiers ensure clean results, while fan-assisted drying helps leave dishes ready to use

- Monitor energy use, receive notifications, and control your dishwasher remotely with SmartHQ™ app

|--------|--------------|
| Height | 820 - 880 mm |
| Width  | 599 mm       |
| Depth  | 553 mm       |

## SPECIFICATIONS

### Accessories (included)

|                |   |
|----------------|---|
| Cutlery basket | • |
| Kickstrip      | • |

### Accessories (sold separately)

|                                       |               |
|---------------------------------------|---------------|
| Handle kit Classic                    | AHCL-DDDW-60X |
| Handle kit Contemporary square, black | AHD3-OBDD-60B |

### Capacity and loading

|                                      |       |
|--------------------------------------|-------|
| Accommodates round plates up to      | 280mm |
| Adjustable height, foldable cupracks | •     |
| Fold down tines                      | •     |
| Pitch adjustable tines               | •     |
| Place settings                       | 12    |
| Place settings per drawer            | 6     |
| Wine glass supports                  | •     |

### Connected Features

|                          |   |
|--------------------------|---|
| Alerts and notifications | • |
|--------------------------|---|

|                               |   |
|-------------------------------|---|
| Consumable subscription       | • |
| Education and onboarding      | • |
| Energy consumption monitoring | • |
| Monitoring                    | • |
| Remote operation              | • |
| Software updates              | • |

### Consumption

|               |   |
|---------------|---|
| Energy rating | C |
|---------------|---|

### Controls

|                                                    |   |
|----------------------------------------------------|---|
| Concealed interface                                | • |
| Electronic fault/Diagnostic indicator              | • |
| End of cycle beeps                                 | • |
| Energy saving delay start option of up to 12 hours | • |
| Keylock                                            | • |
| Knock to pause                                     | • |
| Rinse aid indicator light                          | • |
| Smart appliance                                    | • |

### Features

|                                  |      |
|----------------------------------|------|
| Advanced filtration              | •    |
| Built-in water softener          | •    |
| Fan assisted drying              | •    |
| Flood protection                 | •    |
| Flow through detergent dispenser | •    |
| Motor type                       | BLDC |
| Quiet operation                  | •    |
| SmartDrive™ technology           | •    |
| Soft close drawer                | •    |
| Three-stage filtration system    | •    |

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
