Top Loader Washing Machine, 8.5kg

Series 5 | Top Load

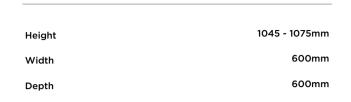

White

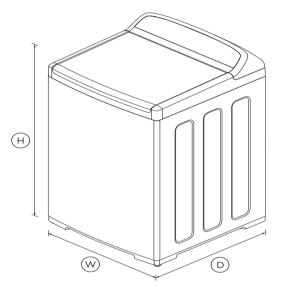

With room for large loads, this top loader runs on SmartDrive™ technology for a quieter, quicker wash.

- Six wash cycles including Allergy, Wool, Delicate and a 30 minute Quick cycle to cater to busy lives
- Includes extra wash feature Soak, for helping to clean tough stains
- Soft-close lid avoids slamming and allows for hands-free operation
- Fast 1000RPM spin speed to remove more water for quicker drying

DIMENSIONS

FEATURES & BENEFITS

Fast full load

Fast cycle times allow you to wash a full 8.5kg load in as little as 59 minutes.

Easy To Use

This machine has a cycle to suit every type of load including Delicate, Allergy and Wool. Select a cycle with easy-to-use SmartTouch™ controls.

Soft Close Lid

The robust lid has a soft close mechanism that makes it family safe, avoids slamming and allows for hands-free operation.

Cares for clothes

The flexible finned agitator ensures less tangling for superior clothes care.

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. Fisher & Paykel Appliances Ltd 2020

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
