- With SmartTouch control panel for ease of use

## DIMENSIONS

Height	70 3/4 "
Width	35 7/16 "
Depth	27 3/8 "

## FEATURES & BENEFITS

### Activesmart™ Foodcare

ActiveSmart™ Foodcare learns how you live. It's technology which understands how you use your refrigerator and adjusts temperature, airflow and humidity inside to help keep food fresher for longer.

### Design Quality

Our refrigerators are designed and built using quality materials. We use real stainless steel on our refrigerators, hidden hinges and solid glass for shelving.

### Clever Energy

Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means your refrigerator uses the energy it needs without compromising on food care.

### Water On Tap

The slimline dispenser makes it easy to fill almost any sized jug or vessel with cool filtered water and doesn't take up any storage space in your refrigerator.

### Humidity Control

Your fruit and vegetables need different environments. The humidity control slides in each storage bin create a microclimate that helps to keep food fresher for longer.

### Ice Maker

Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space or boost ice production by up to 30% during busy times.

### Easy Cleaning

Spill-safe secure glass shelves easily capture any drips or leaks.

## SPECIFICATIONS

### Accessories (sold separately)

Water filter replacement	847200 - FWC3
--------------------------	---------------

### Capacity

Total gross capacity	20.1 cu ft
Volume freezer	5.5 cu ft
Volume refrigerator	14.6 cu ft

### Consumption

Energy rating	Energy Star

**Where applicable:**

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
