90cm Series 7 Contemporary Oven, 9 Function

Series 7 | Contemporary

Stainless Steel

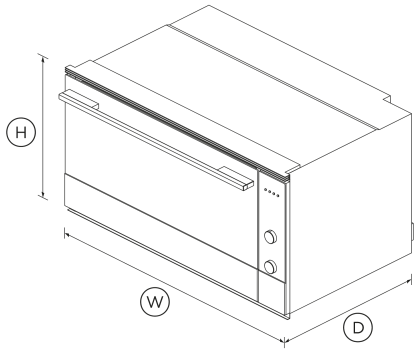

With a large capacity and beautiful contemporary styling, this built-in oven will complement your kitchen design perfectly.

- 100L total capacity
- Nine functions including Pastry Bake, Roast and Warm
- With built-in professional grade rotisserie
- Non-tip telescopic shelves so you can safely slide hot dishes out of the oven

DIMENSIONS

Height	478 mm
Width	895 mm
Depth	564 mm

FEATURES & BENEFITS

Cooking Flexibility

This built-in oven has nine functions with pre-set temperatures, including Bake, Pastry Bake and Fan Forced, allowing you to use a variety of cooking styles.

Sized To Suit

Designed for multi-shelf cooking, this is one of the largest built-in ovens on the market providing 100L total capacity. The wide cavity allows for both side by side and multi-shelf cooking.

Easy Cleaning

This built-in oven has catalytic liners that break down oil and fat splashes during cooking so you don't have to spend hours cleaning.

Safe And Sound

The CoolTouch door with double glazing and cooling system is safe to touch from the outside, protecting your hands and the surrounding cabinetry. Getting large dishes in and out of the oven is a breeze with full telescopic sliding shelves that stay perfectly steady – even when pulled all the way out.

Perfect Results

Our built-in ovens feature AeroTech – a technology that circulates heat evenly, ideal for multi-shelf cooking.

Designed To Match

With their premium handle styling and stainless steel finish, our built-in ovens are designed to match the rest of Fisher & Paykel's kitchen appliance family.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
