Series 7, Integrated Dishwasher

Series 7 | Integrated

Panel Ready

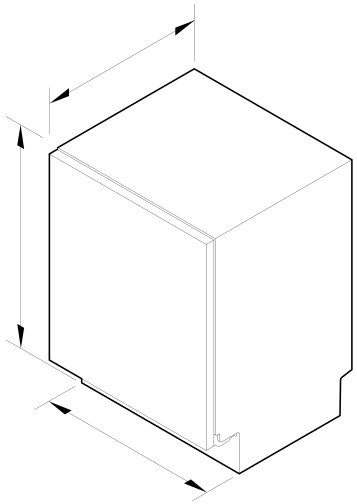

Designed to integrate seamlessly into your cabinetry, this dishwasher delivers superior wash performance and advanced drying.

- Customise with your own front panel and handle to match your kitchen cabinetry
- Eight wash programs from Heavy to Light, including Auto, 60min and Glassware
- Dry+, Sanitise, Half Load and Intensive modifiers provide extra wash options
- Wi-Fi enabled, it connects with the SmartHQ™ app for remote control and notifications

DIMENSIONS

Height	820 - 880 mm
Width	597 mm
Depth	554 mm

FEATURES & BENEFITS

SEAMLESS INTEGRATION

Customise your dishwasher with a panel and handle to match your cabinetry, ensuring a seamless kitchen finish.

Advanced Drying

For beautifully dry dishes every time, this dishwasher features an advanced drying system with fan-assisted drying and Auto Door Open at the cycle's end. This releases excess steam, making dishes ready for use or storage. An innovative air curtain channels steam away from the adjacent benchtop, protecting your cabinetry.

A RELIABLE CLEAN

This dishwasher offers eight wash programs including Auto, which automatically senses the optimal wash settings for your dishes. The three-stage filtration system ensures a superior clean, and the rinse aid indicator reminds you to refill for sparkling results.

Customise Your Wash

Customise your wash with the Half Load modifier for faster turnaround of partial loads. Sanitise kills 99.99% of bacteria* in the final rinse, and the Dry+ modifier is ideal for plastic dishes. *Certified to NSF/ANSI Standard 184.

QUIET PERFORMER

Running at a very low decibel rating, this dishwasher operates quietly. Clever technology and simple mechanics ensure greater reliability and superior wash performance with minimal noise.

FLEXIBLE LOADING

Designed to accommodate 16 place settings, this dishwasher offers adjustable rack options for flexible loading. It includes a cutlery tray for small utensils, a height-adjustable middle rack, cup holders, and wine glass supports for convenience.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
