Panel Ready

Integrating into your kitchen design seamlessly, each drawer fits a half load that you can load and wash independently.*

- Customise with your own front panel and handle to match your kitchen cabinetry
- Knock to pause function is perfect if you miss a dish
- Six wash programs, as well as additional Quick wash, Sanitise and Extra Dry options
- Customise with your own front panel and handle to match your kitchen cabinetry

DIMENSIONS

Height	410 mm
Width	599 mm
Depth	553 mm

FEATURES & BENEFITS

- Ease Of Use**
DishDrawer™ Dishwashers are as easy to open and close as kitchen drawers and can be conveniently positioned at bench height for ease of loading and minimal bending.
- Quick, Sanitise and Extra Dry options**

The Quick wash modifier delivers a faster wash while maintaining performance. The Sanitise option provides extra protection, killing 99.9% of bacteria* in the final rinse. The Extra Dry setting is perfect for plastic dishes. *Certified to NSF/ANSI Standard 184

Knock To Pause
Instead of needing a remote control, these DishDrawer™ Dishwashers have a knock to pause function. A double knock on the front panel will pause the dishwasher which can be re-started again by using the start/play button.

Quiet Performer
Running at a very low decibel rate, these DishDrawer™ Dishwashers do their job without making a fuss. The combination of intelligent technology and simple mechanics means greater reliability and excellent wash performance.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
