FEATURES & BENEFITS

Design quality

Our refrigerators are designed and built using quality materials. We use real stainless steel for the finish, and solid glass for shelving.

Clever energy

Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means it uses the energy it needs without compromising on food care.

Easy cleaning

No more permanent dirty marks with our EZKleen feature for stainless steel fridges. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.

Ice maker

Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space or during busy times, you can boost ice production by up to 30%.

Water On Tap

The slimline dispenser makes it easy to fill almost any sized jug or vessel with cool filtered water, and doesn't take up any storage space in your fridge.

Humidity control

Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.
