

36" Series 9 Contemporary 5 Zone Induction Self-Cleaning Range, 2 SmartZones

Contemporary

With large oven and cooktops that can be paired to create an expansive cook zone, this is a range made for those who love to cook.

- Five induction cooking zones, which can be joined to form SmartZones
- Convection oven with 4.9 cu.ft total capacity, nine oven functions including Roast, Aero Pastry™ with pizza mode and rapid proof for baking bread
- Non-tip full-extension shelves for safe removal of hot dishes
- High-temperature self-cleaning function breaks down food residue for an easy clean

DIMENSIONS

FEATURES & BENEFITS

- Multi-Shelf Cooking**
Our AeroTech™ system circulates air evenly throughout the entire oven so dishes on the top shelf turn out just as perfect as food cooking on the bottom shelf.
- Quality and durability**
Every detail has been carefully crafted. The solid, perfectly balanced soft-close door, durable cooktop and glowing halo dials all add up to an exceptional, premium range.
- Power & control**
Instant and immediate control from the highest to the gentlest heat. The finely tuned cooktop controls let you sear, stir fry or simmer a delicate sauce to perfection.

- Easy To Clean**
Cleaning up spills is effortless. Your cooktop simply needs a quick wipe to keep it looking good as new. The self-clean function breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.
- Even heat**
Accurate, electronically-controlled oven heat ensures a great result every time.
- Large Capacity Oven**
The generous 4.9 cu.ft total capacity oven gives you plenty of space to cook multiple dishes at once, with enough room to fit a 32 lb turkey.

SPECIFICATIONS

Accessories (included)	
2-pc grill system (Broil pan and Grill rack)	•
Broil pan	•
Full extension telescopic shelves	2 sets (part 578744)
Grill rack	TRUE

Accessories (sold separately)	
Kick strip, stainless steel (optional)	KICKOR36X1
Wok grate included	N/A

Capacity	
Shelf positions	7
Total capacity	4.9 cu ft
Usable capacity	4.3 cu ft

Cleaning

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
