Freestanding Cooker, Dual Fuel, 90cm, 5 Burners, Self-cleaning

Series 9 | Classic
Red

Get the best of both worlds with dual fuel. A gas cooktop with wok burner is paired with a nine-function convection oven.

- Five burner cooktop with with dual wok burner and rotisserie

- Convection oven with 140L capacity and nine oven functions plus rotisserie including Pastry Bake with Pizza mode

- Non-tip full-extension shelves for safe removal of hot dishes

- Pyrolytic self-clean that breaks down food residue for an easy clean

DIMENSIONS

Height	898 - 946mm
Width	897mm
Depth	600mm

FEATURES & BENEFITS

Multi-shelf cooking
Our AeroTech™ system circulates air evenly throughout the entire oven so dishes on the top shelf turn out just as perfectly as food cooking on the bottom shelf.

Quality And Durability
Every detail has been carefully crafted. The solid, perfectly balanced soft-close door, durable cooktop trivets and glowing halo dials all add up to an exceptional, premium range.

Easy To Clean
Cleaning up spills is effortless. Your cooktop simply needs a quick wipe to keep it looking good as new. The pyrolytic self-clean oven cycle breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.

Burner Power & Control
Instant and immediate control from the highest to the gentlest heat. The finely tuned cooktop controls let you sear, stir fry or simmer a delicate sauce to perfection.

Large Capacity Oven
The generous 140L total capacity oven gives you plenty of space to cook multiple dishes at once.

Even heat
Accurate, electronically-controlled oven heat ensures a great result every time.

SPECIFICATIONS

Accessories

Flat wire shelf	1
Full extension sliding shelves	2 sets (part 578744)

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. Fisher & Paykel Appliances Ltd 2020

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
