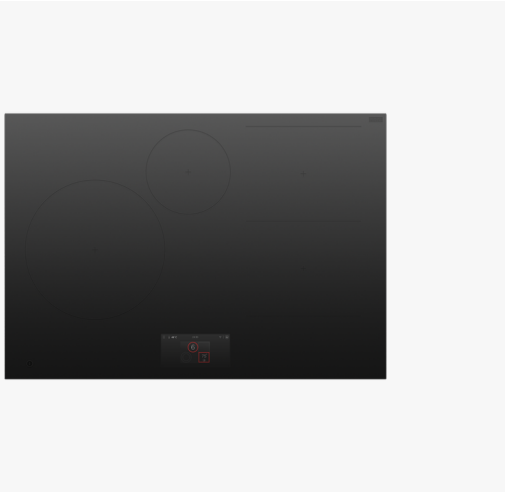
Primary Modular Induction Cooktop, 76cm, 4 Zones with SmartZone

Series 9 | Minimal

Black

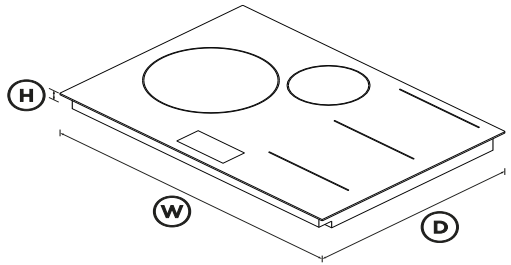


Create the ultimate culinary solution. Designed to seamlessly integrate with the auxiliary cooktop and teppan modules, this primary cooktop features an intuitive 6” touchscreen and precision induction technology, for effortless control and perfect results.

- Select and distribute modular cooktops according to your patterns of use
- Choose from a grey or black glass finish to suit your kitchen design
- Effortlessly control all cooktops via the 6″ touchscreen, for a unified cooking experience
- Includes our Wireless Temperature Sensor for precisely monitoring your food in real time

DIMENSIONS

Height	**62mm**
Width	**760mm**
Depth	**530mm**



FEATURES & BENEFITS

Modular Design Freedom
Achieve complete design freedom with our range of modular cooktops. Seamlessly integrate cooktops of various sizes into your cooking space, tailoring the setup to suit your patterns of use. This design flexibility allows you to optimise space and flow, creating a kitchen that perfectly aligns with the way you live, cook and entertain.

Complementary Design
Available in both grey and black finishes, our Minimal style modular cooktops effortlessly complement your kitchen's aesthetics. Designed to match our touchscreen ovens in both style and functionality, they offer a unified cooking experience. The flush installation ensures seamless integration into modern kitchen spaces.

Centralised Touchscreen Control
The 6″ touchscreen interface is your centralised hub for all modular cooktops. Effortlessly manage auxiliary cooktops, downdraft and teppan modules, providing a streamlined cooking experience. This single screen allows you to control all cook zones and connected ventilation, ensuring a clean and sleek kitchen aesthetic. Refined on-glass graphics and the absence of physical dials further elevate our Minimal style aesthetic.

Mastery of temperature
Fisher & Paykel induction cooktops are designed for precision. With the added advantage of our Wireless Temperature Sensor accessory, you can master temperature in multiple ways. For steaks and proteins, monitor in real-time to achieve your desired doneness. Plus, when sous-vide cooking or poaching, the sensor works in tandem with the cooktop to maintain the ideal water temperature, removing the need for guesswork.

Superior efficiency
Less heat is wasted during induction cooking because only the cookware is heated, not the cooktop surface. This makes induction cooking more energy-efficient than electric or gas cooktops.

Flexible Cooking Area
SmartZone links two cooking zones and controls them as one, giving you the flexibility to use large pans and griddles and easily handle bigger food items, such as a whole fish. SmartZone streamlines the cooking process and allows you to explore different culinary techniques with ease.

Connected Home

Stay connected with the SmartHQ™ app, and easily monitor the status of active cookzones, such as power level, timer settings, and paired wireless temperature sensor readings, directly from your smartphone. The app provides real-time alerts, including timer notifications and temperature milestones, ensuring you're always informed of your cooking progress.
