QUICK REFERENCE GUIDE > OB24SCDEX1

Oven, 24", 11 Function

Series 7 | Contemporary

Stainless Steel

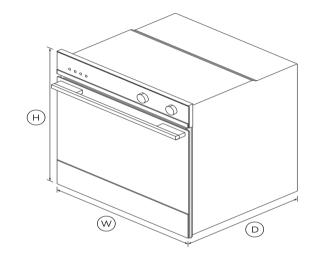

With generous capacity and beautiful contemporary styling, this built-in oven will complement your kitchen design perfectly.

- Three cubic feet total capacity with eleven oven functions including Aero™ Pastry, Roast and Rapid Proof
- Moisture control and even heat distribution thanks to ActiveVent™ and AeroTech technology
- Optional non-tip, full-extension sliding shelves for safe removal of hot dishes

DIMENSIONS

Height	23 9/16"
Width	23 1/2"
Depth	22 1/4"

FEATURES & BENEFITS

GENEROUS CAPACITY

With a generous sized internal cavity, you can create several dishes at once using multiple shelves.

PERFECT RESULTS

Our built-in ovens feature ActiveVent technology for optimized moisture levels, and AeroTech™ for even heat distribution. Get perfect results even when you're using multiple shelves.

Multi-Function Flexibility

11 functions with pre-set temperatures including Aero™ Pastry, Roast and Rapid Proof mean no matter what you're cooking, you've got the right heat to match.

SEAMLESS FIT

Designed to fit seamlessly in your kitchen, this built-in oven fits flush with cabinetry to minimize gaps and add to a cohesive aesthetic.

Cleaning Is Simple

Cleaning this built-in oven is quick and easy thanks to the catalytic liners which absorb oil and fat splashes during cooking.

Refined Styling

With sophisticated handle styling and stainless steel finish, our built-in ovens are designed to match the rest of Fisher & Paykel's kitchen appliance family.

Safe And Sound

The CoolTouch door features triple glazing and a cooling system that ensures it's safe to touch from the outside – protecting both your hands and the surrounding cabinetry.

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. Fisher & Paykel Appliances Ltd 2020

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions.

Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates
carbon emissions from a product's in-use energy. This is calculated either annually
or per cycle, using the product's market-specific energy label energy consumption
data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
