

# Series 7 Contemporary Built-under Dishwasher

Contemporary

Designed for refined everyday performance, this built-under dishwasher integrates cleanly beneath the benchtop with a contemporary proud handle. Flexible internal racking adapts to mixed loads, while auto sensing technology helps select the appropriate wash automatically. Quiet performance supports use in open-plan kitchens, with a choice of stainless steel or black finishes.

- Auto sensing wash adjusts water and wash intensity to suit each load
- Pitch adjustable and fold-down racking adapts easily to mixed everyday loads

- Auto Door Open Dry releases excess steam, while an Air Curtain directs it away from surrounding cabinetry
- Wi-Fi enabled and works with the SmartHQ™ app for remote control and notifications

**Where applicable:**

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
