FEATURES & BENEFITS

- Precise Control**
The consistent flame and heat distribution of the dual flame wok burner combined with the highly responsive dials offer precise heat adjustment that can perfect a slow simmer for sauces or an intense heat for searing steaks.
- Complementary Design**
The subtle black glass and durable matte black detailing are designed to pair with the Minimal style Series 9 Ovens. With premium styling and detailing, these hobs seamlessly blend with other appliances for a cohesive, considered kitchen design.
- Quality Materials**

Featuring cast iron trivets, anodised metal dials, and high-temperature resistant ceramic glass, our hobs are built with the finest materials for optimal performance.

Safe & Sound
The flame failure safety device automatically turns off the gas if the flame is accidentally extinguished.

Easy Cleaning
Cleaning and care of these hobs is easy with sealed burners and a single sheet cooking surface. After each use, simply remove the trivets and wipe down the glass.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
