

# Series 7 Contemporary Single DishDrawer Dishwasher

---

## Contemporary

Introducing the next evolution of DishDrawer™ design. The Single Tall DishDrawer™ Dishwasher delivers advanced performance and quiet efficiency, with extra height to fit larger plates and cookware. Designed for true half-load dish care, it adapts to the way you live, combining flexible placement with a step up in energy and water efficiency.

- Pairs seamlessly with other DishDrawer™ models or works alone to support flexible kitchen design
- Designed for true half-load washing, with flexible racking that fits larger dinner plates up to 11" high
- Versatile wash cycles and modifiers ensure clean results, while fan-assisted drying helps leave dishes ready to use
- SmartHQ™ connectivity offers remote control and notifications through the app

California Warning Proposition 65 (English, Spanish, Canadian French, Chinese)

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
