# 90cm Series 9 Contemporary 5 Zone Induction Pyrolytic Freestanding Cooker, 2 SmartZones

Series 9 | Contemporary

Stainless Steel

Contemporary styling with a large capacity oven, this is the perfect choice for those who love to cook.

- Five cooking zones that can be paired to form SmartZones
- Convection oven with 140L total capacity, and nine functions plus Rotisserie
- Non-tip full-extension shelves for safe removal of hot dishes
- High-temperature self-cleaning oven cycle breaks down food residue for an easy clean

## DIMENSIONS

| | |
|---|---|
| Height | 898 - 946 mm |
| Width | 897 mm |
| Depth | 600 mm |

## FEATURES & BENEFITS

### Multi-Shelf Cooking

Our AeroTech™ system circulates air evenly throughout the entire oven so dishes on the bottom shelf turn out just as perfectly as food cooked on the top shelf.

### Quality And Durability

Every detail has been carefully crafted. The solid, perfectly balanced soft-close door and chromed cast zinc dials add up to an exceptional, premium range cooker.

### Power And Control

Instant and immediate control from the highest to the gentlest heat. The finely tuned hob controls let you sear, stir fry or simmer a delicate sauce to perfection.

### Easy Cleaning

Your hob simply needs a quick wipe to keep it looking good as new. The pyrolytic self-clean oven cycle breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.

### Complementary Design

With clean lines and complementary tonal contrasts, the timeless aesthetic of this Contemporary style range cooker supports a considered kitchen design.

### Large Capacity Oven

The generous 140L total capacity oven gives you plenty of space to cook multiple dishes at once.

## SPECIFICATIONS

**Where applicable:**

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
