

90cm Series 9 3 Burner Gas Cooktop, LPG

Minimal

- A powerful three burner with precision control and performance. Pair with any other appliance in our Minimal range.
- Three burners including two dual wok burners
 - A timeless, minimal look to fit any kitchen style, with black ceramic glass cooking zones and a black trim.
 - A flame-failure safety device; if the flame goes out, the gas turns off
 - Removable cast iron trivets and ceramic glass that can be wiped down for easy cleaning

DIMENSIONS

Height	124 mm
Width	900 mm
Depth	450 mm

FEATURES & BENEFITS

- Complementary Design**
- The subtle black glass, anodised trim, and black dials blend elegance with durability and are designed to match the Minimal style Series 9 ovens. With premium styling and detailing, these cooktops seamlessly blend with other appliances for a cohesive, considered kitchen design.
- Precise Control**
- The consistent flame and heat distribution of the dual flame wok burner combined with the highly responsive dials offer precise heat adjustment that can perfect a slow simmer for sauces or an intense heat for searing steaks.
- Easy Cleaning**

Cleaning and care of these cooktops is easy with sealed burners and a single sheet cooking surface. After each use, simply remove the trivets and wipe down the glass.

Quality Materials

Featuring cast iron trivets, anodised metal dials, and high-temperature resistant ceramic glass, our cooktops are built with the finest materials for optimal performance.

Safe & Sound

The flame failure safety device automatically turns off the gas if the flame is accidentally extinguished.

SPECIFICATIONS

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
