

# Combination Steam Oven, 60cm, Self-cleaning

Series 11 | Contemporary

Stainless Steel

This Contemporary style oven has 23 functions with additional oven accessories, to effortlessly create healthy and delicious dishes.

- With steam-only cooking functions, convection-only, or a combination of both
- 23 oven functions including Steam, Sous Vide, Air Fry and Vent Bake
- Designed to match companion products such as Vacuum Seal Drawers

- Guided cooking capability offers helpful tips for different food types

## DIMENSIONS

Height	598mm
Width	596mm
Depth	565mm

## FEATURES & BENEFITS

### From Steam To Sous Vide

Fine amounts of steam are released with accuracy and precision at a range of temperatures to ensure food is cooked gently and evenly. Perfect for entertaining, you can sous vide proteins such as steak and salmon before guests arrive, and simply sear when ready to serve. The flexibility of timing and accuracy of

temperature control ensure perfect, predictable results every time.

### Gentle And Healthy

Steam functions allow you to cook food in its own juices to retain nutrients, moisture and flavour. With five steam-only cooking functions including Sous Vide, plus four combi-steam functions, this oven lets you enjoy the benefits of flavourful and healthy restaurant-quality meals at home.

### Multi-Function Flexibility

A true multi-function oven, where the advantages of steam and convection cooking can be explored in full. You have the freedom to choose – whether it's dry heat, moist heat, or a combination of the two, each cooking method creates a unique result. Purchase our Wireless Temperature Sensor accessory and precisely monitor cooking in real time (accessory sold separately).

### Cook with confidence

The 2.4" screen provides an intuitive guided cooking experience that helps to deliver perfect results, whether you've been cooking all your life or are just starting out. Cook by food type and allow your oven to guide you through the steps, or change temperature and heat type automatically, depending on your selection.

### Reheat And Restore

Reduce household food waste by reheating foods with steam, which helps to regenerate moisture levels and ensure meals come out fresh and delicious. Use Steam Regenerate to reheat leftover meals such as roasts and risotto, while Crisp Regenerate is perfect for refreshing pastries, breads and pizza.

### Complementary design

Every detail has been carefully crafted from the finest materials to support a considered kitchen design. This Contemporary style oven has a stylish black finish with stainless steel contrasts, designed to help you achieve a kitchen aesthetic that suits your design style. Pair with a Vacuum Seal Drawer for the ultimate kitchen solution.

**Exceptional Convection Performance**

AeroTech™ circulates heat evenly for a consistent temperature throughout the cavity, while ActiveVent technology ensures optimised moisture levels when using convection functions. Achieve perfect results even when you're using multiple shelves.

**SPECIFICATIONS**

**Accessories**

Chromed shelf runners	•
Descal solution	<b>2 sachets, Part 580925</b>
Flat brushed baking tray	<b>1</b>
Grill rack	<b>1 set</b>

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. Fisher & Paykel Appliances Ltd 2020

**Where applicable:**

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
