

## 10kg Series 11 Minimal Heat Pump Dryer, Woolmark Blue

The ultimate Heat Pump Dryer, where refined design meets intelligent precision. Adaptive sensing, a streamlined interface, and thoughtful detailing deliver care that's perfectly tailored to every fibre.

- Ultimate care for 15 fibre types, including Cashmere and Lyocell
- Full-glass design with vibrant 7" touchscreen for intuitive cycle selection
- 3D Active Sense detects moisture deep into the load, even in bulky items or large loads
- Intelligent Temperature System maintains controlled, low temperatures for perfectly precise drying
- Connect SmartHQ™ for notifications, guides and extra functions

### DIMENSIONS

Height	850 mm
Width	602 mm
Depth	695 mm

### FEATURES & BENEFITS

#### OPTIMAL CARE FOR LUXURY FIBRES

Fisher & Paykel Series 11 Dryers are the pinnacle of Fabric Care, with intelligent drying that responds to the unique needs of every fibre. Finely tuned cycles care for synthetic fabrics like Nylon and Elastane plus natural fibres like Linen and Hemp, each dried at the temperature and rhythm best suited to their molecular structure and properties. Controlled via a compatible Front Loader Washer, advanced sensors and Heat Pump technology work in harmony to preserve softness, shape and quality with precision.

#### ULTIMATE FABRIC CARE SOLUTIONS

Simple yet striking, our Minimal Fabric Care appliances have been distilled into a unified aesthetic. Precision-machined glass, extruded aluminium handles, and a tonal palette create a refined look that blends seamlessly into cabinetry. Designed to complement in both form and function, our Front Loader Washer, Display-Free Heat Pump Dryer, and Fabric Care Cabinet bring visual harmony to the home, with the Dryer seamlessly controlled via the Washer's touchscreen.

#### INTELLIGENT HEAT PUMP TECHNOLOGY

Our Intelligent Temperature System with Heat Pump Technology provides gentle care for Cashmere, with delicate keratin fibres sensitive to heat and mechanical stress. Too delicate to tumble, our Folding Dry Rack and low-temperature drying at precisely 55°C protects the delicate fibre's structure, preserving Cashmere's softness, lightweight warmth and natural drape.

#### ADVANCED MOISTURE SENSING

Retain the softness, loft, and warmth of Down jackets with 3D Active Sense. By sensing moisture both on the surface and inside the load, the cycle is adjusted for gentle, even drying. Jackets dry with up to 17% more volume than air drying, protecting fine protein fibres from heat and friction while preserving structure and lasting warmth.

#### GENTLE CARE FOR THE FINEST WOOL

Even the most delicate, hand-wash only woollens are safely dried with Woolmark Blue certified cycles. Wool fibres are fragile when wet, and heat can quickly alter their structure. Precisely controlled temperature and airflow gently care for each fibre, preserving softness, shape, and fit so garments emerge beautifully maintained and ready to wear.

#### STEAM REFRESH

Gently refresh Lyocell garments with Steam Refresh. Lyocell fibres are made of delicate microfibrils that can develop fuzz or pills if fully saturated or over-agitated. Steam Refresh applies just the right amount of moisture to relax fibres without excessive swelling, reducing the risk of pilling and helping garments retain their smooth appearance and soft feel between washes.

**PROTECT LINEN FROM TANGLING**

TangleProtect keeps Linen garments moving freely by alternating drum direction, preventing twisting or clumping that can cause uneven drying. Linen fibres absorb water easily, causing them to swell and collapse, which leads to creasing. The Linen cycle and full-reversing drum gently tumbles garments, reducing strain, reducing wrinkles, and preserving Linen's natural softness, texture and drape.

**SPECIFICATIONS**

**Accessories (included)**

- Drying rack •

**Capacity**

Total capacity **10 kg**

**Connected Features**

- Alerts and notifications •
- Cyber security updates until **12 / 09 / 2029**
- Education and onboarding •
- Monitoring •
- Remote operation •
- Software updates •

**Consumption**

Energy rating **10 star**

**Controls**

- Adjustable alert beeps •
- Beeps on/off function •
- Interface type **7" touchscreen**

**Features**

- Child/Keylock •
- Clean condenser filter reminder •
- Clean door lint filter reminder •
- Crease Free •
- Drain Hose •
- Drum light •
- Easy access lint filter •
- Easy clean condenser filter •
- End of cycle signal •
- Favourite cycle **Multiple**
- Front and back levelling feet •
- Iron ready alert •
- No external venting •
- Smart appliance •
- Stainless steel drum •

**Performance**

- 3D sensing technology •
- Auto sensing •

Compressor type **Variable speed**

- Delay start •
- Dryness settings **4**
- Heat pump technology •
- Refrigerant type **R290**
- Reverse tumbling **Full reverse tumbling**
- TangleProtect •
- Time dry •

**Product dimensions**

Depth **695 mm**  
 Height **850 mm**  
 Width **602 mm**

SKU **93317**

**Where applicable:**

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
