

# 6kg Series 3 Vented Dryer, Auto Sensing, Full Reverse Tumbling

Vented

Dry your clothes efficiently without over drying, with multiple ways to install and vent.

- Auto-sensing detects moisture level to prevent under or over drying
- Four fabric care cycles including Everyday, Heavy, Delicate and Time Dry
- Full reverse tumbling to help dry garments quicker and more evenly
- Delay Start so you can set the start time to suit your schedule

## DIMENSIONS

Height	830 mm
Width	600 mm
Depth	575 mm

## FEATURES & BENEFITS

### Auto-Sensing Technology

Auto-sensing prevents over-drying by sensing moisture levels inside the drum and shutting off automatically. This helps clothes last for longer and reduces energy consumption.

### Cares For Clothes

This model has four fabric care cycles including Delicate and Heavy, so all your items are taken care of. Select a cycle with the easy to use SmartTouch™ controls.

### Simple Installation

Vent out either the front or the back of this dryer. A wall mounting kit is included and the control panel can be inverted easily.

### Easy Loading

The robust dryer door features die cast metal hinges that open to a full 180° for easy access and loading.

## SPECIFICATIONS

### Capacity

Total capacity **6 kg**

### Consumption

Energy rating **2 star**  
 Energy usage **267kWh/year**  
 In-use energy carbon emissions estimate **162.9kgCO2e/year**

### Dry Cycles

Delicate •  
 Everyday •  
 Heavy •  
 Number of cycles **4**  
 Time dry •

Choice of front or rear venting	•
Dryness settings	3
Reverse tumbling	<b>Full reverse tumbling</b>
Temperature settings	4
Time dry	30

**Where applicable:**

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
