 - Spacious bottom freezer with full extension drawer gives easy access to frozen goods

DIMENSIONS

Height	71 13/16 "
Width	35 1/16 "
Depth	23 3/4 "

FEATURES & BENEFITS

- ACTIVESMART™ FOODCARE**
ActiveSmart™ Foodcare learns how you live. It's the technology that understands how you use your fridge and adjusts the temperature, airflow and humidity inside to help keep food fresher for longer.
- Clever Energy**
Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means your refrigerator uses the energy it needs without compromising on food care.
- Ice maker**
Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space or during busy times, you can boost ice production by up to 30%.

- Design quality**
Our refrigerators are designed and built using quality materials. We use real stainless steel on our refrigerators and solid glass for shelving.
- Easy Installation**
Our integrated products are easy to install, whether you are renovating your kitchen or designing a new one. Our refrigerators are designed for minimal gaps with adjustable front and rear feet to allow for uneven floors alongside adjustable door panels that can be customized to match your kitchen.
- Easy cleaning**
No more permanent dirty marks with our EZKleen feature for stainless steel refrigerators. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.
- Simple storage**
This refrigerator is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.

Features		Power Requirements		Where applicable:
Adjustable door shelves	6	Rated current	10 A	All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.
Adjustable glass cantilevered shelves		Supply frequency	60 Hz	
Covered door shelves	2	Supply voltage	115 V
