

5kg Series 3 Vented Dryer, Auto Sensing, Full Reverse Tumbling

Vented

Dry your clothes efficiently, without over drying, in this vented dryer that's perfect for smaller households.

- Four dry cycles including Delicate, Heavy and Everyday
- Auto-sensing detects moisture levels to prevent under or over drying
- Full reverse tumbling for an even dry and less tangling of clothes
- Comes with wall brackets, making it easy to hang for a tidy laundry

DIMENSIONS

Height	830 mm
Width	600 mm
Depth	600 mm

FEATURES & BENEFITS

Cares For Clothes

Auto-sensing prevents over-drying by sensing moisture levels inside the drum and shutting off automatically. This helps clothes last for longer and reduces energy consumption.

Easy Loading

The door opens a full 180° for easy access and loading.

SPECIFICATIONS

Consumption

Energy rating	2 star
Energy usage	220kWh/year
In-use energy carbon emissions estimate	134.2kgCO2e/year

Dry Cycles

- Everyday
- Heavy
- Time dry

Features

- Child/Keylock
- Clean door lint filter reminder
- Easy access lint filter
- End of cycle signal
- Progress indicator
- Safety restart switch
- Stainless steel drum

Performance

- Auto sensing
- Choice of front or rear venting
- Dryness settings **3**
- Reverse tumbling **Full reverse tumbling**
- Temperature settings **4**

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
