

# 9kg Series 9 Heat Pump Dryer, Steam Care

In a subtle and sophisticated graphite colour, with heat pump condensing technology for better energy efficiency and fabric care.

- 23 fabric care cycles including Steam Freshen to quickly dewrinkle and deodorise your clothes
- TangleProtect technology reduces clothes tangling and ensures even drying
- Speed mode reduces drying times of cycles
- Class-leading 10-star energy rating

## DIMENSIONS

<b>Height</b>	<b>850 mm</b>
<b>Width</b>	<b>600 mm</b>
<b>Depth</b>	<b>670 mm</b>

## FEATURES & BENEFITS

### The Pinnacle Of Fabric Care

Intuitive controls with clever drying hints help you get the best results. The LCD display provides a simple interface to select from 23 dry cycles; including Steam Freshen, Hygiene, Activewear, Wool, Silk and Denim.

### Dewrinkle, Deodorise, Detangle

The steam cycle is perfect for occasions where clothes have been worn once and need freshening. An alternative to full-cycle washes, it removes odours without using detergent and gently eases the creases out of clothes to save precious time spent ironing.

### Customise Your Drying With Optimise Dry

For a focus on energy efficiency, dry with the default Optimise Dry Eco option. Choose Speed to shorten cycle times, while Quiet mode reduces cycle noise - perfect for late night laundry. Available on Everyday, Cottons, Towels and Heavy cycles.

### Tangleprotect Technology

TangleProtect technology pairs an advanced air circulation system with true reverse tumbling to reduce tangling and balling during the dry cycle - ensuring your clothes and sheets are dried consistently and evenly.

### Faster Dry Times

Speed mode utilises a variable speed compressor to deliver a faster drying time, closer to timings experienced with vented dryers.

### A Perfect 10

This dryer uses heat pump technology to gently and effectively dry clothes at low temperatures. With an outstanding 10-star energy rating, you can dry with confidence.

### Health And Hygiene

The Hygiene cycle provides extra protection for your clothes. The extra high dry temperature is designed to kill more than 99.9% of bacteria and reduce allergens, perfect for durables such as sheets and towels.

## SPECIFICATIONS

### Capacity

Total capacity **9 kg**

### Consumption

Energy rating **10 star**

Energy usage **105kWh/year**

In-use energy carbon emissions estimate **10.0kgCO2e/year**
