

4.5kg Series 3 Vented Dryer, Auto Sensing, Full Reverse Tumbling

Height	830 mm
Width	600 mm
Depth	485 mm

Total capacity	4.5 kg
----------------	--------

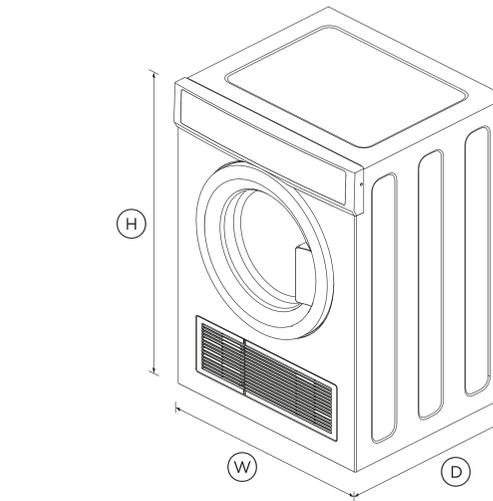

Series 3 | Vented

Dry your clothes efficiently, without overdrying, in this vented dryer that's perfect for smaller households.

- Autosensing detects moisture level to prevent under or over drying
- Four fabric care cycles including Delicate and Everyday
- Easy access and loading with a door that opens 180°

DIMENSIONS

FEATURES & BENEFITS

Auto-Sensing Technology

Auto-sensing prevents over-drying by sensing moisture levels inside the drum and shutting off automatically. This helps clothes last for longer and reduces energy consumption.

Easy Loading

The robust dryer door features die cast metal hinges that open to a full 180° for easy access and loading.

SPECIFICATIONS

Capacity

Consumption

Energy rating	2 star
Energy usage	200kWh/year
In-use energy carbon emissions estimate	122.0kgCO2e/year

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
