

45cm Series 9 1 Burner Gas Cooktop, LPG

Minimal

- Powerful single wok burner. Pair with any other appliance in our Minimal range.
- Perfect for a compact cooking area with one dual flame wok burner
 - A timeless, minimal look to fit any kitchen style, with black ceramic glass cooking zones and a black trim
 - A flame-failure safety device; if the flame goes out, the gas turns off
 - Removable cast iron trivets and ceramic glass that can be wiped down for easy cleaning

DIMENSIONS

Height	124 mm
Width	450 mm
Depth	530 mm

FEATURES & BENEFITS

Complementary Design
The subtle black glass, anodised trim, and black dials blend elegance with durability and are designed to match the Minimal style Series 9 ovens. With premium styling and detailing, these hobs seamlessly blend with other appliances for a cohesive, considered kitchen design.

Quality Materials
With cast iron trivets, anodized metal dials and tough ceramic glass that can withstand high temperatures, we use only the highest quality materials for optimal performance.

Safe & Sound
The flame failure safety device automatically turns off the gas if the flame is accidentally extinguished.

Easy Cleaning
Cleaning and care of these cooktops is easy with sealed burners and a single sheet cooking surface. After each use, simply remove the trivets and wipe down the glass.

Precise Control
The consistent flame and heat distribution of the dual flame wok burner, combined with highly responsive dials, offer precise heat adjustment that can perfect a slow simmer for sauces or an intense heat for searing steaks.

User Guide (English)

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
