

61cm Series 11 Integrated Column Refrigerator

Series 11 | Integrated

Panel Ready | Right Hinge

<p>Install it separately or pair with another Column for seamless kitchen integration – this model is right hinge with stainless steel interior.*</p>

- Customise with your own kitchen cabinetry or purchase our stainless steel door panel accessory
- Variable Temperature Zone lets you change a compartment to Fridge, Pantry or Chill for optimal storage

DIMENSIONS

Height 2134 mm

Width 603 mm
Depth 610 mm

FEATURES & BENEFITS

Variable temperature zones

When it comes to optimal food preservation, one temperature does not fit all. Create the perfect climate for different food and drink types using Variable Temperature Zones. Change a compartment to Fridge, Pantry or Chill Mode for maximum everyday convenience, or change modes for additional capacity when you need it.

Pantry Mode

Not everything benefits from cold storage. Pantry Mode (11 to 13°C) is the perfect climate to store foods that benefit from a cool, dark place, including bread, many types of fruit, bananas, avocados, tomatoes, nuts, grains and cereals.

Mix & match

Integrated Column Refrigeration gives you the freedom to mix and match. Different sized Column Fridges and Freezers can be installed separately or paired. Finish them with our stainless steel door panels or customise to match your own kitchen cabinetry.

Clever Energy

Our ActiveSmart™ Foodcare Refrigerator Freezers adapt to daily use by cooling and defrosting only when needed. This means your refrigerator uses the energy it needs without compromising on food care.

Appealing illumination

Bright LEDs light up each ceiling, shelves, bins and trays in both refrigerator and freezer, making it easy to find your food and creating a welcoming glow in your kitchen for those midnight snacks.

Design quality

The premium design and quality finish includes a steel interior lining as well as full-extension metal shelf runners for easy access, and robust glass shelving.

Easy install

Integrated Column Refrigerators and Freezers have been developed to make their installation easy. The joiner kit is included when pairing refrigerators and freezers. All models come with front adjustable levelling feet and they've been designed to easily slide into place as separate units.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
