Series 9 Integrated Single DishDrawer Dishwasher

Series 9 | Integrated

Panel Ready

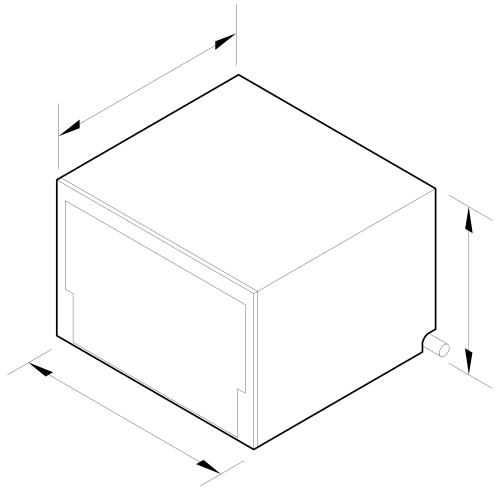

Introducing the next evolution of DishDrawer™ Dishwasher design. The Integrated Single DishDrawer™ Dishwasher delivers advanced performance, quiet efficiency and true half-load dish care. Designed to integrate seamlessly within your kitchen cabinetry, it gives you the freedom to shape your space around the way you cook and connect. New wash technology offers a step up in energy and water efficiency, engineered for real life and shaped by decades of DishDrawer™ Dishwasher innovation.

- Holds a true half load, ideal for quick turnaround of dishes with convenient bench-height access
- Capacitive touch controls, refined styling and SmartHQ™ connectivity bring intuitive convenience to everyday dish care.
- Adaptable racking and versatile wash cycles provide flexibility, with fan-assisted drying for clean, dry dishes
- Panel-ready design allows seamless integration with your kitchen cabinetry, or pair with a stainless steel door panel

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
