

18.2cu ft Series 7 Refrigerator Freezer, Ice

Contemporary

- Designed for everyday living, this refrigerator freezer combines contemporary style and generous storage with the added convenience of ice on demand.
- Ultra-flat door design conceals handles, for a sleek and streamlined look
 - Extra fridge space and dual humidity bins provide ample storage for fresh produce and deli items
 - ActiveSmart™ technology maintains the ideal temperature to help keep food fresher for longer
 - Internal ice maker delivers fresh ice on demand

DIMENSIONS

Height	67 7/8 "
Width	31 1/8 "
Depth	27 9/16 "

FEATURES & BENEFITS

- Complementary design**
Recessed handles and flat doors create a sleek, streamlined look that blends seamlessly with any kitchen aesthetic. Finished in stainless steel to complement a wide range of kitchen styles.
- Ample fresh storage**
Designed for those who prioritize fresh food, this refrigerator features a 70:30 fridge-freezer split, offering extra fridge space and an additional humidity-controlled drawer. Ideal for storing fresh produce or separating deli items and meats, it ensures everything has its place.
- Dual humidity drawers**

Two full-width humidity-controlled bins create ideal microclimates to keep fruits and vegetables fresher for longer, ensuring your produce stays crisp and delicious.

ActiveSmart™ Foodcare
ActiveSmart™ Foodcare technology responds to everyday use by adjusting airflow, temperature, and humidity to help keep food fresher for longer.

- Clever energy**
Your refrigerator adapts to daily use by cooling and defrosting only when necessary. This ensures energy is used efficiently without compromising food care.
- Ice maker**
Fresh ice is always on hand in a dedicated freezer bin. Turn it off to free up space when needed, or activate the boost function for extra ice during busy times.
- Easy cleaning**
Spill-safe secure glass shelves easily capture any drips or leaks and prevent them from falling on items below.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
