

60cm Series 9 Integrated Insert Wall Rangehood

Integrated

With edge-to-edge extraction, this efficient, stylish rangehood is perfectly hidden away in your cabinetry.

- With five fan speeds, select the perfect extraction rate for your cooking
- With dimmable LED strip lighting
- 700m³/hr maximum airflow
- Dishwasher safe filters that are easy to remove and clean

DIMENSIONS

Height 407 mm

Width 580 mm
Depth 280 mm

FEATURES & BENEFITS

- Edge To Edge Extraction**
Filters effectively reach edge to edge, which maximises the extraction area.
- Full Surface Lighting**
The even lighting provides full coverage of the cooktop, illuminating food in its true colour, with no hot or dark spots and no glare or shadows. The dimmable lights have fade in and fade out features.
- Easy To Use**
This easy to use rangehood operates with fingertip control of LED-illuminated soft touch buttons. Selected models also come with a remote control.
- Energy Efficiency**

Powered by a brushless DC motor, the Integrated Rangehood operates more efficiently, more reliably and with less noise than units with AC motors.

Effortless Cleaning
The stainless steel filters are easy to remove and are dishwasher safe. A self-contained grease tray within the filters makes them very easy to clean.

Simple Installation
The simple installation process is compatible with most precut cabinetry. The adjustable mounting system can be installed with 16mm to 38mm cabinetry board.

SPECIFICATIONS

Connected Features
Cyber security updates until 10 / 09 / 2030

Fan ratings
Maximum air movement 700 m³/hr
Speed 3 sound rating 54 dBA

Installation and cleaning
Air outlet size 150 mm
Dishwasher safe filters 2
Ducted Vertical only

Performance
Extraction type Surface
Fan speeds 5
Filter type Stainless Steel Baffle

Power requirements

Supply voltage 230 V

Product dimensions

Depth 280 mm
Height 407 mm

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
