

Series 9 Integrated Tall Double DishDrawer Dishwasher

Integrated

Introducing the next evolution of DishDrawer™ design. The Double Tall DishDrawer™ delivers advanced performance and quiet efficiency, with independent drawers and extra height to accommodate larger cookware. Designed for seamless integration within kitchen cabinetry and guided by intuitive touch controls, it brings a step up in energy and water efficiency for everyday living.

- Wash one, stack another. Independent drawers run separately or together, fitting plates up to 12" high
- Capacitive touch controls, refined styling and SmartHQ™ connectivity bring intuitive convenience to everyday dish care.
- Built-in water softener and adaptable racking help protect glassware and dishes in every wash
- Panel-ready design allows seamless integration with your kitchen cabinetry, or pair with a stainless steel door panel

California Warning Proposition 65 (English, Spanish, Canadian French, Chinese)

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
