DIMENSIONS

Height	1790 mm
Width	900 mm
Depth	695 mm

FEATURES & BENEFITS

Complementary design

Recessed handles and flat doors create a streamlined look to fit any kitchen aesthetic. With the choice of natural stainless steel or elegant black stainless steel, you can pick the finish that best complements your kitchen design.

ActiveSmart™ Foodcare

ActiveSmart™ Foodcare learns how you live. It is technology which understands how you use your refrigeratorand adjusts temperature, airflow and humidity inside to help keep food fresher for longer.

Clever energy

Your refrigerator adapts to daily use by cooling and defrosting only when necessary. This means your refrigerator uses the energy it needs without compromising on food care.

DESIGN QUALITY

Our refrigerators are designed and built using robust, quality materials, with stainless steel exteriors and solid glass for the interior shelving.

Ice maker

Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off when you need to free up freezer space, or during busy times, use the boost feature to increase ice production.

Ultra slim water dispenser

The slimline dispenser makes it easy to fill almost any sized jug or vessel with cool filtered water and doesn't take up any storage space in your refrigerator.

Humidity Control

Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
