

30" Series 9 Contemporary 4 Zone Induction Range

Contemporary

You'll love the instant response induction cooktop with multi-function oven, perfect for making a roast, baking bread and more.

- Four instant-response, cool-to-touch induction cooking zones
- Convection oven with 3.5 cu. ft total capacity and nine oven functions including
- Non-tip full-extension shelves for safe removal of hot dishes
- High-temperature self-cleaning function breaks down food residue for an easy clean

DIMENSIONS

Height	35 3/4 - 37 5/8 "
Width	29 7/8 "
Depth	25 1/4 "

FEATURES & BENEFITS

- Multi-Shelf Cooking**
Our AeroTech™ system circulates air evenly throughout the entire oven so dishes on the top shelf turn out just as perfect as food cooking on the bottom shelf.
- Quality And Durability**
Every detail has been carefully crafted. The solid, perfectly balanced soft-close door, durable cooktop and glowing halo dials all add up to an exceptional, premium range.
- Power & Control**
Instant and immediate control from the highest to the gentlest heat. The finely tuned cooktop controls let you sear, stir fry or simmer a delicate sauce to perfection.
- Easy To Clean**

Cleaning up spills is effortless. Your cooktop simply needs a quick wipe to keep it looking good as new. The self-clean function breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.

Even heat
Accurate, electronically-controlled oven heat ensures a great result every time.

SPECIFICATIONS

Accessories (included)	
2-pc grill system (Broil pan and Grill rack)	•
Broil pan	•
Full extension telescopic shelves	2 sets (part 578776)

Accessories (sold separately)	
Hob rear trim	3 1/8"" (part 81656)
Kick strip, stainless steel (optional)	KICKOR30X1

Cleaning	
Acid resistant graphite enamel	•
Drop down broil element	•
Drop down grill element	•
Flat easy clean glass surface	•
Pyrolytic proof shelf runners	•
Pyrolytic self-clean	•
Removable oven door	•
Removable shelf runners	•

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
