FEATURES & BENEFITS

Cooking Flexibility

Accurate, electronically-controlled oven heat, ensures a great result every time with 9 functions and pre-set temperatures including bake, grill, pastry bake with pizza mode and fan forced, for a variety of cooking styles.

A Modern Legacy

A refined, minimalist style with attention to the smallest details. High-performance cooking technology offers multiple cooking functions.

Quality And Durability

Every detail has been carefully crafted. The solid, perfectly balanced soft-close door, machined stainless dials and glowing halo dials all add up to an exceptional, premium range.

Large Capacity Oven

The generous 3.5 cu.ft total capacity oven gives you plenty of space to cook multiple dishes at once, with enough room to fit a 26 lb turkey.

Easy To Clean

Cleaning up spills is effortless. The flat ceramic cooktop is easily wiped after use, and the self-cleaning oven breaks down food residue at a very high temperature leaving a light ash that's easily removed with a damp cloth.

Even Heat

Accurate, electronically-controlled oven heat ensures a great result every time. Dishes on the top shelf turn out as perfectly as the ones on the bottom due to our AeroTech™ convection system that circulates air evenly throughout the entire oven.
