538L Series 7 Quad Door Refrigerator Freezer, Ice & Water

Series 7 | Contemporary

Stainless Steel | French hinge

With ample storage and a stylish contemporary design, this model will complement your kitchen perfectly.

- Recessed handles for a sleek look to complement any kitchen design
- ActiveSmart™ technology helps keep food fresher for longer by constantly maintaining the ideal temperature
- Convenient access to fresh, chilled water and ice with slimline water dispenser and internal ice maker
- Variable Temperature Zone lets you change a compartment to Chill, Fridge, Soft Freeze or Freezer for optimal storage

DIMENSIONS

Height	1790 mm
Width	905 mm
Depth	688 mm

FEATURES & BENEFITS

Variable Temperature Zone

When it comes to optimal food preservation, one temperature does not fit all. Variable Temperature Zones give you full control over the way you care for food. At the touch of a button, easily convert the lower right compartment to Freezer, Soft Freeze, Chill or Fridge mode, to best suit different types of food. Adjust zones for maximum every day convenience, or change modes to provide additional chilling capacity for special occasions.

Chill Mode

Keep ready-to-eat food fresher for longer with Chill Mode (-1.5 to 0°C). Chill Mode is a perfect solution for everyday life. It keeps meats, poultry and fish as cool as possible, retaining vital freshness and helps food retain its condition for around three times longer than Fridge Mode. It's also great for entertaining. Set a zone to Chill Mode to quickly bring beverages down to serving temperature.

Activesmart™ Foodcare

ActiveSmart™ Foodcare learns how you live. It is technology which understands how you use your refrigeratorand adjusts temperature, airflow and humidity inside to help keep food fresher for longer.

Soft Freeze Mode

Soft freeze (-10 to -6°C) is perfect for food that will be consumed soon – but not right away. Set a zone to Soft Freeze Mode and enjoy optimal food storage and everyday convenience. Soft frozen food requires only a quick thaw rather than a full defrost. It is the ideal setting for easy portioning, such as cut loaves of bread, soups and even cured meats, or for serving straight from the compartment.

Design Quality

Our refrigerators are designed and built using robust, quality materials, with stainless steel exteriors and solid glass for the interior shelving.

Complementary Design

Recessed handles and flat doors create a streamlined look to fit any kitchen aesthetic. With the choice of natural stainless steel or elegant black stainless steel, you can pick the finish that best complements your kitchen design.

Ice Maker

Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off when you need to free up freezer space, or during busy times, use the boost feature to increase ice production.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
