

90cm Series 7 5 Burner Gas Cooktop, Natural Gas

Contemporary

All the essentials in a large cooktop, including a wok burner for high heat cooking.

- Five burners including a wok burner
- A flame-failure safety device; if a flame goes out, the gas turns off

DIMENSIONS

Height	59 mm
Width	900 mm
Depth	530 mm

FEATURES & BENEFITS

- Precise Control**
The consistent flame and heat distribution of the burners, including the wok burner, combined with highly responsive dials offer precise heat control. Perfect a slow simmer for sauces or an intense heat for searing steaks.
- Easy Handling**
With flat cast-iron grates, pots and pans can easily be slid across elements, coming in handy in busy cooking environments.
- Safe And Sound**
The flame failure safety device automatically turns off the gas if the flame is accidentally extinguished.
- Complementary Design**
The brushed stainless steel and polished metal trim has been designed for durability but also provides a modern, stylish finish, matching the Fisher & Paykel family of kitchen appliances.
- Easy To Clean**

- The stainless steel component is easily accessible and quick to clean. Cast iron trivets provide a durable and stable cooking platform, with rubber feet to prevent them from scratching the cooktop.
- Handy Accessories**
This cooktop comes with a small pan support and wok stand to complement different cooking styles.
- SPECIFICATIONS**
- Accessories (included)**
- | | |
|-------------------|------|

Power requirements		Where applicable:	
Supply voltage	230-240 V	All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.	
Product dimensions		Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
