- Features SmartTouch control panel for ease of use
- Spacious bottom freezer with full extension drawer

DIMENSIONS

Height	1798 mm
Width	796 mm
Depth	606 mm

FEATURES & BENEFITS

Activesmart™ Foodcare

ActiveSmart™ Foodcare learns how you live. It's technology which understands how you use your refrigerator and adjusts temperature, airflow and humidity inside to help keep food fresher for longer.

Flexible Storage

Designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.

Easy Cleaning

Secure, spill-safe glass shelves easily capture any drips or leaks, and can be easily removed for fast and easy cleaning.

Fast Freezing

When freezing fresh food, the freshness, texture and taste are retained with rapid freezing. The Fast Freeze function boosts the freezing speed by dropping the freezer to its coldest temperature for 12 hours, ensuring food is fast and fully frozen.

Beautiful Lighting

LED lighting illuminates the interior with a crisp, clean glow for enhanced visibility. Our energy saving LEDs use less power than comparable halogen lights.

Clever Energy

This refrigerator adapts to daily use by cooling and defrosting only when needed, providing greater energy efficiency without compromising on food care.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
