

Series 9, Integrated Tall Dishwasher

Integrated

- Designed to integrate seamlessly into your cabinetry, this tall dishwasher delivers superior wash performance and advanced drying.
- Customise with your own front panel and handle to match your kitchen cabinetry
 - Eight wash programs from Heavy to Light, including Auto, 60min and Glassware
 - Dry+, Sanitise, Half Load and Intensive modifiers provide extra wash options
 - Wi-Fi enabled and connects with the SmartHQ™ app for remote control and notifications

DIMENSIONS

Height	857 - 917 mm
Width	597 mm
Depth	554 mm

FEATURES & BENEFITS

Seamless Integration

Customise your dishwasher with a panel and handle matching your cabinetry, for a seamless finish in your kitchen.

Advanced Drying

For beautifully dry dishes every time, this dishwasher features an advanced drying system. It combines fan-assisted drying with an automatic door opening at the cycle's end. The Auto Door Open Dry feature releases excess steam, ensuring dishes are immediately ready for use or storage. An innovative air curtain channels the steam away from the adjacent benchtop, protecting your cabinetry.

An Exceptional Clean

This dishwasher offers eight wash programs including Glassware and Auto, which automatically senses the optimal wash settings for your dishes. The three-stage filtration system delivers a superior clean, while the rinse aid indicator reminds you to top up for beautifully clean dishes.

Customise Your Wash

Create the perfect wash with our range of modifiers, from Intensive for a thorough clean to Half Load, ideal for a partial load. The Sanitise modifier provides extra protection, killing 99.9% of bacteria* in the final rinse, while Dry+ is great for plastic dishes. *Certified to NSF/ANSI Standard 184

Quiet Performer

Running at a very low decibel rating, this dishwasher does its job without making a fuss. The combination of clever technology and simple mechanics means greater reliability and superior wash performance, with minimal noise.

Flexible Loading

Designed to fit 16 place settings, the tall height of this model lets you stack large items with ease. Adjustable racking provides flexibility for any load, with a full-width cutlery tray, height-adjustable middle rack, cup holders and wine glass supports.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
