

# 60cm Series 7 Contemporary Combi-Steam Oven

Contemporary

With its timeless and expressive Contemporary design, this Combi-Steam oven offers steam cooking, convection cooking, or a combination of both - with method-led cooking.

- Create perfect results with precise cooking methods, including Sous Vide and Crisp Regenerate, via the 5" touchscreen
- Simple maintenance with a Dry Cycle to remove moisture inside the oven after steaming
- Generous 85L total capacity with 6 shelf positions

- With WiFi and the SmartHQ™ app, you can remotely monitor cooking progress and control key functions

### Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
