- Use the optional trim kit to integrate this microwave with your cabinetry
- Part of our suite of companion products, designed to match aesthetically for flexible configurations

## DIMENSIONS

Height	458mm
Width	596mm
Depth	562mm

## FEATURES & BENEFITS

### Sized To Suit

A compact 46cm height means this Combination Microwave Oven can be placed almost anywhere. The companion products share the same dimensions and can be installed in multiple configurations to suit your kitchen design and preference.

### Cooking flexibility

Choice of nine cooking modes including Fan Forced and Grill giving you the best of microwave and convection oven technology.

### Easy to use

The intuitive touch display shows you all the information you need, allowing you to easily program in your desired cooking mode and duration.

### Beauty Of Choice

With the choice of a stylish stainless steel or elegant black trim, our companion products help you achieve a coherent kitchen aesthetic that suits your design style.

### EASY CLEANING

This Combination Microwave Oven has formed side racks and a stainless steel interior that are easy to clean.

### Safe And Sound

The CoolTouch door is safe to touch from the outside, protecting your hands and the surrounding cabinetry.

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. Fisher & Paykel Appliances Ltd 2020

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
