Series 9 Contemporary Tall Double DishDrawer Dishwasher

Series 9 | Contemporary

Stainless Steel

Introducing the next evolution of DishDrawer™ Dishwasher design. The Series 9 Double Tall DishDrawer™ Dishwasher delivers advanced performance and quiet efficiency, with independent drawers and extra height to accommodate larger cookware. Combining intuitive touch controls with innovative wash technology, it brings a step up in energy and water efficiency for refined everyday living.

- Wash one, stack another. Independent drawers run separately or together, fitting plates up to 12" high
- Capacitive touch controls, refined styling and SmartHQ™ connectivity bring intuitive convenience to everyday dish care.
- Adaptable racking fits everything from glassware to cookware, offering flexibility for every occasion
- Versatile wash cycles and modifiers ensure clean results, while fan-assisted drying helps leave dishes ready to use

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
