FEATURES & BENEFITS

13 fabric care cycles

13 fabric care cycles including Steam Refresh, Quick 30, Bulky and Easy Iron. A gentle, effective wash action protects clothes while delivering an optimal wash performance.

Quick steam refresh

Steam Refresh is perfect for occasions where clothes have been worn once and need freshening up. The 20 minute cycle will reduce odours and de-wrinkle clothes, making them ready to wear again without the need for a full wash cycle.

Customise your wash

Select "Speed" to shorten wash and rinse times or choose "Eco" to wash more sustainably with lower temperatures and less water usage.

A Smarter, Quieter Motor

SmartDrive™ Technology is a gentle, quiet, and efficient combination of smart electronics and a direct drive motor that senses the load to deliver better fabric care.

Approved By Woolmark™

Our Wool cycle is an extra gentle warm wash, perfect for machine washable woollen items. It has a Woolmark™ guarantee so you can wash with confidence, saving time on hand washing.

Add A Garment

The Add a Garment feature allows you to quickly add or remove any size garment mid cycle. Simply press the Add a Garment

button and the door will unlock. If the drum water is too high, just enough will be drained out before the door is unlocked.

Designed to Match

The complete package for a beautiful laundry. The 8.5kg washing machine is designed to match our 8kg Heat Pump Condensing Dryer or the 8kg Condensing Dryer. With outstanding aesthetics and complimentary wash and dry cycles, they become the perfect pair to deliver complete fabric care.
