- ActiveSmart™ technology helps keep food fresher for longer by constantly maintaining the ideal temperature.
- Customize with your own kitchen cabinetry or purchase our stainless steel door panel accessory.
- With SmartTouch control panel for ease of use
- Spacious bottom freezer with full extension drawer and ice maker with boost function

DIMENSIONS

Height	71 7/8 "
Width	31 1/8 "
Depth	23 11/16 "

FEATURES & BENEFITS

Perfect Fit

These models fit flush and have minimal gaps, with no visible hinges. Our Integrated refrigeration can be seamlessly hidden behind your cabinetry or you can purchase our stainless steel door panel.

ActiveSmart™ Foodcare

ActiveSmart™ Foodcare learns how you live. By understanding how you use your refrigerator and adjusting temperature, airflow and humidity inside, it helps keep food fresher for longer.

Flexible Storage

Designed to make it simple for you to store, sort and access food. Storage bins give you full access inside when they’re pulled open and can be easily removed to clean. Our cantilevered shelving also gives you more storage options.

Ice maker

Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space, or during busy times you can boost ice production by up to 30%.

Beautiful Lighting

LED lighting illuminates the interior with a crisp, clean glow for enhanced visibility. Our energy saving LEDs use less power than comparable halogen lights.

Easy Cleaning

Secure, spill-safe glass shelves easily capture any drips or leaks, and can be easily removed for fast and easy cleaning.

Clever Energy

This refrigeratoradapts to daily use by cooling and defrosting only when needed, providing greater energy efficiency without compromising on food care.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
