

90cm Series 7 Integrated Insert Wall Rangehood

Integrated

This efficient, stylish rangehood in black glass and stainless steel integrates seamlessly above your cooktop.

- With four fan speeds, select the perfect extraction rate for your cooking
- Powerful maximum air movement 780m³/hr
- Energy-efficient LED lighting illuminates the cooking surface beautifully
- Dishwasher safe filters that are easy to remove and clean

DIMENSIONS

Height	315 mm
Width	830 mm
Depth	280 mm

FEATURES & BENEFITS

Achieve The Invisible

The Integrated Insert Rangehood fits seamlessly behind your kitchen cabinetry, providing ventilation that is as discreet as it is powerful.

Effective Extraction

Four fan speeds including the powerful "boost" option ensure that odours, vapour and steam are removed quickly and effectively.

Easy Cleaning

The glass and stainless steel finishes are easily wiped clean and the aluminium filters are dishwasher safe. An alert reminds you when to clean the filter so that you get the best possible performance.

Quality Materials

This rangehood comes in a sleek black glass finish with real stainless steel frame. Hidden energy-efficient LED strip lighting illuminates the cooking surface beautifully.

SPECIFICATIONS

Accessories (included)

Aluminium filter	792943

Product dimensions

Depth	280 mm
Height	315 mm
Width	830 mm

Ventilation features

Dimmable lights	•
Filter cleaning alert	•
Light type	LED strip
Timer function	•

SKU 50151

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
