Integrated Insert Cooker Hood, 90cm

Series 7 | Integrated
Stainless Steel and Glass

With edge-to-edge extraction, this cooker hood is perfectly hidden away in your cabinetry.

- With three fan speeds plus a boost function, select the perfect extraction rate for your cooking

- Energy-efficient LED lighting to illuminate your hob surface

- Wi-Fi enabled for notifications through the SmartHQ™ app

DIMENSIONS

Height	316mm
Width	830mm
Depth	280mm

FEATURES & BENEFITS

Achieve the invisible

This stylish rangehood fits seamlessly into your kitchen cabinetry, providing ventilation that is as discreet as it is powerful.

Effective extraction

Featuring three fan speeds, plus a boost function, this cooker hood provides powerful extraction to quickly remove odours and steam. Odours can linger in the kitchen well after cooking is finished so the timer keeps the hood working for up to 15 minutes before automatically turning off.

Easy Cleaning

Designed for simple removal, the filters are easy to clean and dishwasher safe, while the glass and stainless steel finish is easily wiped clean. The SmartHQ™ app will notify you when to clean the filter to ensure you get the best performance out of your cooker hood.

Quality Materials

This cooker hood comes in a sleek black glass finish with a real stainless steel frame.

Full Surface Lighting

Low energy, dimmable LED lights provide superb illumination of the entire hob surface.

SPECIFICATIONS

Accessories

Aluminium filter	792943

Accessories (sold separately)

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. Fisher & Paykel Appliances Ltd 2020

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
