

24" Series 9 Contemporary Self-Cleaning Oven

Contemporary

A highlight of the Fisher & Paykel collection, this Series 9 oven with touchscreen guided cooking helps to ensure every dish is cooked to perfection.

- Touchscreen guided cooking capability offers helpful tips for different food types as well as full recipes
- 3 cu ft total capacity, with 16 oven functions including Pastry Bake, Roast, Air Fry and Dehydrate
- Moisture level control with ActiveVent technology
- Pyrolytic self-cleaning function breaks down food residue for an easy clean

DIMENSIONS

Height	23 9/16 "
Width	23 7/16 "
Depth	22 1/4 "

FEATURES & BENEFITS

Cook With Confidence

Using the large 5" touchscreen interface, you can cook with a favourite method, a hero ingredient, or a go-to cooking function or recipe. Your oven will guide you through the steps, or change the temperature and heat type automatically, depending on your selection.

Generous Capacity

With an exceptional 3 cu ft total capacity, you can create several perfectly cooked dishes at once using multiple shelves. Non-tip, full-extension shelves help to ensure safe removal of hot dishes.

Exceptional Performance

Our unique cooking technologies were developed to deliver perfect results. ActiveVent ensures optimized moisture levels, while AeroTech™ circulates heat evenly for a consistent temperature.

Safe And Sound

The CoolTouch door of this built-in oven is safe to touch from the outside. Sturdy, fully extendable shelves slide all the way out, reducing the need for you to reach inside.

Self-Cleaning

Pyrolytic self-clean breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth. The enamel coated side racks don't need to be removed when using this function.

Design Freedom

Designed to fit seamlessly into your kitchen, this built-in oven features premium materials and detailing to support a cohesive, considered kitchen design.

Multi-Function Flexibility

Each function has been tailored, tested and perfected to ensure that no matter what you're cooking, you've got the right heat to match. Purchase our Wireless Temperature Sensor accessory and precisely monitor cooking in real time (accessory sold separately).

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
