

# 24" Series 5 Contemporary Oven

Contemporary

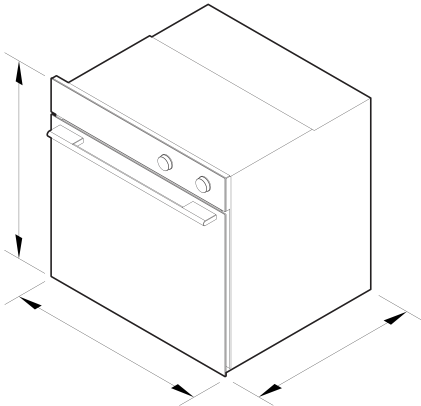

This timeless and expressive oven features 9 versatile functions, with dial controls and illuminated icons for simple operation

- 9 versatile functions including Air Fry and Pizza Bake
- Dial control with illuminated icons for simple operation
- Generous 3 cu ft total capacity
- Multi-Functional Air Fry Tray for Air Frying, Baking, or Broiling, with a perforated design for even airflow

## DIMENSIONS

|        |           |
|--------|-----------|
| Height | 23 9/16 " |
| Width  | 23 7/16 " |
| Depth  | 22 1/4 "  |

## FEATURES & BENEFITS

### Flexible Cooking Functions

Each function has been perfected to deliver the optimal heat for a wide range of dishes, with 9 functions including Air Fry, True Aero, and Pizza Bake.

### Considered Design

Simple and intuitive control makes cooking easy, with a responsive dial and clear illuminated icons that enable straightforward function selection. Designed to integrate seamlessly into your kitchen, this built-in oven sits flush with cabinetry to minimise gaps and create a cohesive, streamlined look.

### Multi-functional Accessories

Thoughtfully designed accessories expand your cooking possibilities. Designed to fit seamlessly into the side ladders, each accessory sits securely in place for confident cooking. The Multi-Functional Air Fry Tray promotes even airflow for crisp, golden results, while the Roasting Dish and telescopic sliding runners provide versatile options that work seamlessly with your oven.

### Cook With Consistency

Whether Baking, Roasting or preparing several dishes at once, AeroTech™ technology circulates heat evenly throughout the cavity, helping to deliver consistent results throughout the oven.

### Generous Capacity

More room means greater flexibility when cooking. With an 3 cu ft total capacity, this oven provides ample space for multiple dishes, larger meals, and everyday cooking.

### Engineered for Life

Built for enduring performance, our Ovens undergo intensive testing equivalent to 7,300 hours or 20 years of real-world use, delivering durability you can rely on.

**Where applicable:**

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
