Depth	484 mm

FEATURES & BENEFITS

Coffee Choice
Our coffee maker has 13 different options to suit individual taste and selection – from Flat White to Latte to Macchiato.
Self-Cleaning
The coffee maker has a self-cleaning function, and comes with a removable drip tray and a waste container for used coffee grounds.
Complementary Design
Designed to match our Contemporary style Companion suite, this Coffee Maker has a stylish stainless steel finish with a polished metal trim.
Coffee Your Way

With a programmable timer your favourite coffee can be memorised and set to start at the same time each day. The intuitive touch display includes refill, cleaning and maintenance data, while twin LED lights illuminate your beverages creating a welcoming glow on those dark mornings.

Sized To Suit
Perfect for the compact kitchen, this Built-in Coffee Maker can be placed virtually anywhere. All our companion products can be installed at a convenient height to suit your kitchen design and preference.

Barista-Style Coffee
The conical burr grinder delivers a consistent grind for the perfect coffee. Set it to suit your preference.

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
