Series 9 Contemporary Double DishDrawer Dishwasher

Series 9 | Contemporary

Stainless Steel

Introducing the next evolution of DishDrawer™ Dishwasher design. The Double DishDrawer™ Dishwasher delivers advanced performance, refined detailing and effortless connectivity. New wash technology offers a step up in energy and water efficiency, engineered for real life and shaped by decades of DishDrawer™ Dishwasher innovation.

- Wash one, stack another. Independent drawers run separately or together, fitting plates up to 280mm in diameter
- Capacitive touch controls, refined styling and SmartHQ™ connectivity bring intuitive convenience to everyday dish care
- Adaptable racking fits everything from glassware to cookware, offering flexibility for every occasion
- Versatile wash cycles and modifiers ensure clean results, while fan-assisted drying helps leave dishes ready to use

DIMENSIONS

Height	820 - 880 mm
Width	599 mm
Depth	553 mm

SPECIFICATIONS

Accessories (included)

Cutlery basket	•
Kickstrip	•

Capacity and loading

Accommodates round plates up to	280mm
Adjustable height, foldable cupracks	•
Fold down tines	•
Pitch adjustable tines	•
Place settings	12
Place settings per drawer	6
Wine glass supports	•

Connected Features

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
