Oven, 60cm, 7 Function, Self-cleaning

Series 5 | Contemporary

Stainless Steel

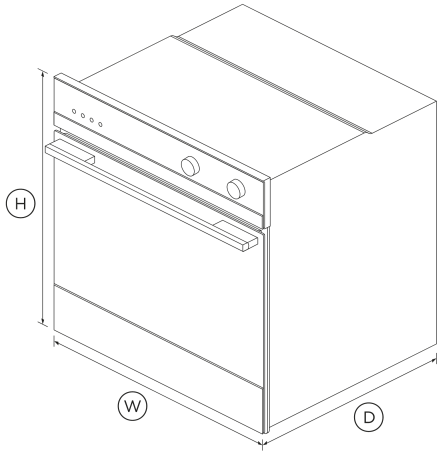

With generous capacity and beautiful contemporary styling, this built-in oven will complement your kitchen design perfectly.

- 85L total capacity
- Seven oven functions including Pizza Bake
- Pyrolytic self-cleaning function breaks down food residue for an easy clean

DIMENSIONS

Height	598 mm
Width	596 mm
Depth	565 mm

FEATURES & BENEFITS

Multi-function Flexibility

This built-in oven has seven functions with pre-set temperatures, including Bake, Fan Bake and Pizza Bake, allowing you to use a variety of cooking styles.

Generous capacity

With a generous sized internal cavity of 85L total capacity, you can create several dishes at once using multiple shelves.

Consistently hot

Ideal for multi-shelf cooking, this built-in oven features AeroTech™ - a technology that circulates heat evenly.

Pyrolytic self-cleaning

Pyrolytic self-clean breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.

Refined styling

With sophisticated handle styling and black glass finish, our built-in ovens are designed to match the rest of Fisher & Paykel's kitchen appliance family.

Safe and sound

The CoolTouch door of this built-in oven is safe to touch from the outside. Sturdy, fully extendable shelves slide all the way out, reducing the need for you to reach inside.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
