

24" Series 9 Contemporary Compact Combi-Steam Oven

Contemporary

Reduce the need for oils and fats with steam cooking. Its compact size makes this perfect to pair with a warming drawer underneath.

- 1.3 cu ft total capacity
- Cooking flexibility with nine oven functions, including five Steam functions, Broil and Convection
- Steam cooking allows you to cook a food in its own juices, to retain nutrients and flavour
- Designed to match aesthetically with companion products such as warming drawers, for flexible cooking configurations

DIMENSIONS

Height	18 1/16 "
Width	23 7/16 "
Depth	22 1/8 "

FEATURES & BENEFITS

- SIZED TO SUIT**
This compact 24" Steam Oven can be placed almost anywhere. All Companion products can be installed at a convenient height to suit your kitchen design and preference.
- SIMPLE TO USE**
An easy to use, intuitive display shows the time and provides useful information about functions along with a refill alert.
- EASY CLEANING**
Cleaning and care of the Steam Oven is simple. After each use, just wipe the smooth stainless steel interior with a dry cloth.
- SAFE & SOUND**

The CoolTouch door is safe to touch from the outside, protecting your hands and the surrounding cabinetry.

EASY INSTALLATION
Plug in and cook straight away. The Steam Oven is easy to install, with no plumbing needed.

HEALTHY EATING
The Steam Oven allows you to cook food in its own juices to retain nutrients and flavor. With nine oven modes, it doesn't just steam, but also has Broil and Fan functions.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
