

569L Series 7 French Door Refrigerator Freezer, Ice & Water

Contemporary

With its large capacity you'll have plenty of flexible storage space in this French Door Refrigerator in stylish stainless steel.

- ActiveSmart™ technology helps keep food fresher for longer by constantly maintaining the ideal temperature.
- Spacious bottom freezer with full extension drawer gives easy access to frozen goods.
- Door water dispenser and internal ice maker

DIMENSIONS

Height 1790 mm

Width 900 mm
Depth 695 mm

FEATURES & BENEFITS

Humidity Control
Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.

Ice Maker
Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space, or during busy times you can boost ice production by up to 30%.

Design Quality
Our fridges are designed and built using quality materials. We use real stainless steel on our fridges and solid glass for shelving.

Simple Storage

This refrigerator is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.

WATER ON TAP
The slimline dispenser makes it easy to fill almost any sized jug or vessel with cool filtered water and doesn't take up any storage space in your refrigerator.

Complementary Design
With their premium handle styling and stainless steel finish, our fridges are designed to match the rest of Fisher & Paykel's kitchen appliance family.

SPECIFICATIONS

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
